Foreword

WE PRESENT this book to our many friends in the hope that it may create the very best impression of our Alma Mater. We have endeavored to chronicle correctly the important events and subjects of the year in a manner which will be of interest in the years to come when we shall bring our Newtonias from dusty shelves to renew old times and acquaintances in the life of old

Dedication

TO Miss Ida McKee, as an appreciation of her genuine interest in the student body and her untiring efforts in their behalf for the past eleven years, we the class of nineteen hundred nineteen, respectfully dedicate this volume of the Newtonia.

FACULTY

SUPERINTENDENT H. P. SMITH

B. A., M. A., Iowa State University,

Post Graduate Work at

Chicago University, Iowa State University,
Columbia University.

Mr. Smith has met the numerous problems which have prevailed in the public schools this year with exceptional capability. Mr. Smith's ability as a speaker and lecturer is known throughout the state and he is frequently called upon for work along this line.

Although his time is strenuously filled with educational problems he still finds time to become personally acquainted with all the students.

PRINCIPAL CHARLES E. LAUTERBACH

B. A. Iowa Wesleyan College.

Mr. Lauterbach came to N. H. S. after spending two years in the service of U. S.

Although he has been our Principal a short time, he has won the respect and admiration of the people of Newton, the teachers and the entire student body.

The "Flu" quarantines have made this year very difficult for everyone, and yet the people of the school have found Mr. Lauterbach and efficient principal, a loyal worker and a true friend.

.... Faculty Jokes

Smanthy Hayseed,
Onion Street,
Punkinville.

Dere Smanthy:

I thot mebe you'd be interested in the doin's of this here skule. Expecially about the petagoges (ain't that eloquent, Smanthy?) Well, Mr. Lauterbach, he is the boss at this here skule, and he is the most diverse man you ever did see. Also, he's in love with a girl, but he can't help it, Smanthy, he's just like I am about you. He has a cheap ring in great conspicuity on his watch chain, and it looks like tin; mebe it's copper tho. I'm always magnamious, ain't that so Smanthy? I've heard even that he's taken corsage bouquets of sweet peas to her, Smanthy.

Miss McKee (she's just like you, Smanthy) and she's sum algebre teacher. Actuly, Smanthy, she nos mor about algebre than I do, and so you can jest imagin' how smart

she is. I like her tho, Smanthy, cause I can have so much fun with her. But I've eugelized on her enuf, ain't I Smanthy? I dun't want you to get jealous.

Miss Beard teches the dead language at this here skule. Ain't that a grusum subject, Smanthy? The funy thing about it is that when we students here study it here very long, we are almost dead. But don't worrie, Smanthy, I ain't takin' it. It's all I can do to learn other things. Ain't that right?

There's a teacher here Smanthy, that wears glasses, and she also has that reserved air of which you like about me. Her name is Mansfield. Every few days she gits little bouquets of dandelions and buttercups like I send yu Smanthy. When this here teacher goes to a party she kin dress jest like a lil' girl and act the part, too. She inflicts ritin' on us here.

We have a Baldwin at this here skule. Not an apple, Smanthy—a teacher. I don't

think she won anything tho, Smanthy, that's jest one of natures errors. I guess she teches geography and English, but don't know for sure.

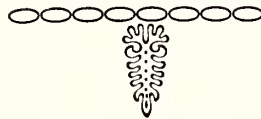

Timothy Hi Pockets.

Dere Smanthy:

Wal', I was thinkin' as to how long it's bin since I wrote you last. I bin in this here city fur five weeks now, and have got acquainted with a feu more of the techers.

They got a couple of pretty good cooks up here. They go by the name of Masteller and McLaughlin. I even heerd that they invented a new kind of meat loaf by puttin' lemon extract in it, and a new cake by usin' soda instead of bakin' powder.

Miss Baker is one of them Junior Hi Skule techers. I guess she has a hard t'me to enforce descipline in the assemblage room. Jest when every one is hungry about noon she makes 'em all stay in on account of makin' so much noise.

There is two more techers in this Junior Hi Skule that I've seen, too. They are Miss Griebeling and Miss Manning. I don't know them very well, cause I always try to kep as far away from them as I can. They look wise, and they always look at me as tho they thot I had done something I hadn't ought ter.

They got another couple of techers up in this mightie Hi Skule. They are Miss Broderick and Miss Campbell. They tech English. Miss Broderick is noted for her lauf, Smanthy. I guess she laufs somethin' like yu do. It makes me lonesome to hear her. Miss Campbell, she's called a good scout.

Yours till the lemon ades,

Timothy.

Dere Smanthy:

I take my delicate instrument of hieroglyphicating intu my f'ist to rite a fu wurds tu yu.

Say Smanthy, I jest wish thet yew culd see this here techer thet they call Brandt. He shur is a funny guy. He teeches the kids English (I don't like English, but yew couldn't tell the difference culd yew Smanthy.) There is a place on his face where a mustache oughter be. Brandt is awful grandillykent, but I dun't spose yew know what that means, never havin' gone to Hi Skule. He used to be in the army, and he still likes a certain canteen worker he saw there, because there is always a faraway look in his eyes which causes his changeable complexion.

Dunn's the guy thet teches manual training. He is purty good at hammerin' nails and pianners. He likes anuther of the techers tho, Smanthy. But I hadn't better tell yu her name, Smanthy, cause thet would be like tellin' tales outa skule.

There's wun reel little teecher here. Her name is Cook. The school kids sa'id this techer went down to Grinnell last winter. We wud like to know what it was fur. We has our suspicions thet it was a higher motive then a basket ball game. This here

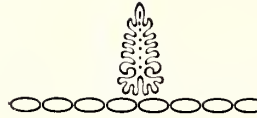

teecher is more of a "cook" now then she will be after she gits married.

Mr. Metzler is 'nuther feller that I want to tell yu about. He is the Hi Skule farmer, and he teeches the country jakes that come to this skule how to farm. This teecher is a polite guy—but don't get excited about him, Smanthy—he's insured.

Mr. Signs is the guy that nows such a lot about figures. I can't recollect what yu call 'em, but I think it's sum kind of keepers. But he don't keep anything he 'nos. He certainly can talk a lot. All he duz is stuff one thing into a feller.

Madammuzel Reeder is the French woman at this Hi Skule. We no two things about this techer. She has got a friend in California and she likes pink ice cream. This here techer speeks French and sometimes we kids can't understand her. We heerd that she goin' to France this summer, and learn French all over again.

Mr. Morgan is the techer whot teches the kids about hearts and circulation 'n everything. Us kids here calls him the Bugologie techer. This here techer has got a hard hart and a bald head. We thinks his heart is hard cause he is awful mean to the poor little kids what don't have time fur to study their lessons, and so they has to stay in the eighth period. Madammuzel Reeder is his first Lieutenant about the eighth period dope.

Yours till the moon comes up,
Timothy.

Dere Smanthy:

Havin' nothin' better to do, I take tools in hand again to rite yew. I'm sorri your paw is feelin' worse and hope he's about the same now.

Mr. Hogel, he's a funny fella. He teches fizicks—I ain't takin' it tho Smanthy. But I guess he's a purty good techer. He's not much of a talker in public, but I've heerd say

that when he's in a class room with the door shut he can beat Patrick Henry when he comes to talkin' (you know who Patrick was, Smanthy.)

I saw an old sooter of yur's yesterday, Smanthy. He's thet little bowlegged feller what they called Davis. He wuz runnin' around after 'nuther fello who was dressed in a flour sack, and tellin' him to get a little pepper. I couldn't understand what it all meant, and I don't 'spose yu do.

I wisht you knew all these here techers Smanthy. They're a awful funnie bunch. T'other day I wuz walkin' along in the basement of this here Hi Skule and I heerd a commotion in the gim. I looked in and I seen Miss Smith (she's our swell gim techer) runnin' Misses Gardner and Kelly round and round. Then she sez, "Halt! Right face!" "Right dress!" An' then this here angle techer she says, "this 's my rite face," and Mrs. Gardner says, "This is my rite dress." And Miss Smith she fell over on the floor moanin' somethin' about no brain, no brain,

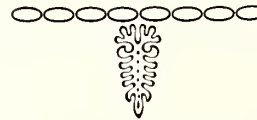

or somethin'. It was kinda bewilderin, Smanthy.

We have a Furniss up here tew, which is a high tone name fur a stove which heats a whole house at the same time, by hot air. When we buy our hous-keepin' tools after I gradyate we won't by no Furniss, Smanthy.

Miss Stewart, she's nuther one of what they call the fakulty. She teeches kids tew play the drum in Spanish and such like. She's got a purty good way of beatin' the skule board (which is'nt nothin' like the board yew think I mean) out of some money. She makes all the pore kids pay a penny for every word they sey in English; which is a purty good way of grafting.' She claims she's teeches 'em Spanish thataway, but they can't fool me, Smanthy.

Well, I must clothes, and rite to a lot uf other girls,

'O reservoir (that what Madummuzelle Reeder says),
Timothy.

May We Introduce to You

MARGERY—the girl with the “Mrs. Vernon Castle style,” the sweet personality, and the incessant chatter.

FRED B.—our dashing young fullback, who was captain of the football team. He is a very busy man, and frequently makes visits to East Main Street.

IMOGENE AND GRACE—the two care-free country lassies, who lunch between classes, and are quite fond of returned overseas soldiers.

MARK S.—our basketball captain who is game first, last, and always. Known throughout the school as a “regular guy” and lives up to his reputation.

CLEORA AND IRENE—the girls who have adopted the suitable motto of “Chatter, chatter as we go,” and live up to it in fine style. Always make their visiting place the middle of the lower hall.

KARL J.—our learned student who has just started out in society. A boy who loves to work and be of service.

DENA—the one Senior that was never known to have moods or grow discouraged. A loyal and sincere friend.

WALTER H.—one of our new members, and one who is always there with the goods. Greater men than he, may have lived,—but he doubts it.

VERA AND HILMA—the two inseparables who have more than one thing in common—overshoes and smiles. Yes—and don’t they both use the same powder puff.

MARY LITTLE—a Dutch collar, a black tie, big brown eyes, “Hullo Kids,”—and that’s Mary.

GLEN E. AND BILL—They look like clothing store advertisements, and are by their own admission exceptionally clever as heart smashers.

INIS M.—is our “shy little Indian maid” with the unique personality. She loves all colors, but prefers—Lavender.

GEORGE W.—We all admit that “nobody loves a fat man,” but George is the exception. Just notice sometime and see if we haven’t guessed correctly.

MARY G.—if you see a pair of snapping, blue eyes, a long thick braid, and an impish grin, you may be sure you’re looking at “Little Mary.”

LUCILLE Mc.—the girl who really hurries, but hasn’t learned to start on time. Blessed with a boyish grin, that makes friends easily.

AL. MORRIS—His four strenuous years at High school have made him long and lean. If you would be in h’s favor don’t mention the fact that you know his middle name is Colfax.

FLORENCE Mc.—the girl with the worried frowns and motherly way. Is quite fond of bright colored sashes.

NORMA D.—one of the school’s most useful ornaments—she tries to divide her time equally between French translations, Newtonia work,—and Fred.

“MOP” C.—Our young athlete with the cheerful grin—heard most anywhere, where there is someone to tease.

LULA AND ANNA—the girls who aspire to teach dirty faced youngsters in little white school houses. Both as good as they are tall.

FONDA T.—a girl with a quick blush, downcast eyes, and a timid manner. Properly called “the shy little girl with the shy little way.”

MERWIN AND BOWMAN—two lively, wide awake boys who love to “show off” their cleverness in a classroom. All the students like them—but we’re not sure about the teachers.

NELLIE H.—another country lass—she seems to radiate health and happiness where e’er she goes. Liked by all her friends.

FREDA S.—a curly headed, dimple cheeked little miss—loves to giggle at anything or nothing, and believes in getting a lot of joy out o’ life.

JOE H.—a good scout. Full of cleverness and wit—and foolishness, and never lets a chance go by where he can show his art off.

MARGARET S.—Her brown eyes seem to say things whenever she looks at you—she is quite fond of talking herself.

FRANKIE M.—our little song bird whom we have fittingly named, “the girl with the million dollar smile.”

VELMA M.—a girl who is ready for a good time anytime. Not quite as meek and innocent as she seems to be.

RALPH Mc.—an unceasing grin, a loose red sweater, and that’s Ralph all over. Usually found anytime of the day in room 22.

ESTELLA E.—a brown eyed gentle girl with a quick friendly smile and a kind word always ready for everyone.

FLORENCE S.—one of our bright students who has the art of “pulling down” high grades without working herself to death for them. Always in for a good time.

EARNESTINE D.—the committee could find absolutely no scandal about her. Always attends to her own business. Is a lot of fun in a bunch of girls.

JAMES L.—the Senior who takes life as it comes and doesn't worry about anything. Never dated in his life and says he never will—we wonder.

CLARA B.—the golden haired infant of the class. Fond of rubber heeled shoes, and practices the saying "Children should be seen and not heard."

THELMA—a lively little girl who never seems to grow up. Is a regular clown when she wants to be—furnished much merriment in Physics Lab.

CLINTON S.—he was once described as having a romantic mouth. Yes—and he has a romantic name, too, if you put his nickname and last name together—“Holy Smoke.”

ESTHER W.—a quiet little thing who is a good worker wherever you put her. The world just wouldn't go "round right without 'Esty.' "

VERA P. AND STELLA R.—two more quiet friendly girls. Never were guilty of throwing notes or whispering—or dating.

GRACE C.—our cheerful, blue eyed Senior who believes in turning the dark cloud inside out to see the silver lining.

LEORA S.—she used to scorn the boys but now she's changed her mind. Always looks on the bright side of things.

HAROLD S.—a real farmer, and he drives a real Ford, too. Big in stature,—but biggest in heart.

KEITH AND CARROLL—the two farmers of the bunch whose main interests in life are—athletics, agriculture, and girls.

ELVIS S.—a good student, a good singer,
a good friend, a good man.

AVONEL S.—the girl who is a friend to everyone and to whom everyone is a friend. Steady and wise, but still full of fun.

EDITH AND SARAH—the modern Siam-
ese twins, who look, act and talk alike. Quiet
girls but liked by all who know them.

CARROLL M.—Comes to school because he doesn't know what else to do. Isn't such a prominent personage in N. H. S., but how funny it would seem without him.

PAUL VAN D.—a good steady student and a good steady boy. The world would be a better place if there were more men like Paul.

FRANCIS M.—He's not so very big or not so very studious but he's a good friend to all who know him.

AMELIA M.—another blond little girl, who smiles and smiles and smiles. And, oh yes, she drives her own car, too.

MARGARET M.—still another quiet, friendly girl. Puts her heart into whatever she is interested in and makes a go of it.

MAURINE AND NELLIE C.—our two studious friends whose echo never has a chance. We might say that Maurine has a giggle all her own, and that Nellie aspires to be a school teacher.

THE LIBRARY CLUB

The Library Club is the first of its kind that N. H. S. has ever boasted. The Club is made up of the librarians and their assistants of the High School library, and those girls interested in work of this nature. Many enjoyable, instructive meetings have been held this year and the girls feel fully repaid for the time they have given for it.

The work has not been "wholly study" for some social times were also enjoyed. Miss Campbell, organizer of the club has acted as faculty advisor of the work and she is to be congratulated upon her success in the work. The officers were: Mildred Furniss, President; Ione Nelson, Vice-President; Hilma Walker, Secretary and Treasurer.

JUDGING TEAM

VOCATIONAL AGRICULTURE

The Department of Agriculture has for its primary object, the training of boys to be the best possible farmers. Its work is that of giving school room instruction, and definite and specific practice in the application of that instruction, on the home farm of the boys. The Department boasts of having the most valuable laboratory at its command of any department in school. Aside from the regular equipment of the school laboratory, the classes have access to any and all of the farms of its members, as well as an open hearted welcome to the farms of the good, substantial farmers of Jasper County.

Judging enters very largely into the activities of the classes. Our team met at Ames in competition with teams all over the state,

and won the following prizes: First in corn, clover, timothy, fat cattle, poultry and eggs, sweepstakes in Farm Crops and sweepstakes in Animal Husbandry. The team, by winning the last named event, becomes the all Iowa team in contest with teams from the various states of the Union caring to send teams, at the International Live Stock Show at Chicago, held the last of December.

The Department is planning on expansion of course and laboratory space, and is offering attractive work to any who are interested in the work. Its aim is to extend its influence to every agricultural interest of the county.

U. C. FREAK'S MAMMOTH SHOWS

U. C. Freak's Mammoth Shows exhibited under the big top at the corner of First Street and Second Avenue, East, on April 25th, 1919. It was the only purely "fun" stunt given under the auspices of the school this year and every member of the faculty and every student co-operated enthusiastically.

U. C. Freak's Mammoth Shows was indeed an enjoyable event—one that will not soon be forgotten by the students and friends of Newton high school.

The main events of the circus were:

"Is the Editor In?"
Gynasium Menagerie.
Dixie Minstrels.
The Orpheum.
Forty Foolish Freak's.

ATHLETICS

J. ELWOOD DAVIS

B. A. Liberal Arts University of Iowa.
History, Boys Physical Training, Athletics.

"Davy" has won a whole half section of old Newton High's heart because of his untiring efforts to "Put Newton on the Map." He is the only person in Iowa who understands the full significance of the word "Fight."

We do not realize the honor we have had bestowed upon us by having such a man in our midst. When Davis was in college athletics he was always a hard, clean fighter who could not be downed by anybody, large or small and this is the spirit which he has tried to instill in Newton High's system.

He was selected for two years on the all-western football team which includes only the stars among football players from the middle west. There are only a few high schools in U. S. with an enrollment of three hundred fifty pupils who have such a man as Davis in charge of their athletics. He is not very big but every inch of his body is made up of fight and pepper.

It's Fight! Fight!! Fight!!! All the time with him and with such a man in charge of her athletics how can old N. H. S. help but succeed.

"Here's to you Davy!!!"

....Football Review of 1918....

Football season opened September twenty-first with a big victory for Newton on our home field with West Liberty as our opponent. The game was an easy victory for Newton—in fact, most of the subs were put in during the last half.

On October twenty-eighth the Newton team journeyed to Des Moines, and after a fast, scrappy battle, went down to defeat against East High. Th's defeat was due to the short ttime our men had had for training and practice. November fifth our men with a crowd of rooters went to Marshalltown and played the best game of the season and played hard, but luck did not seem to be with them for they were forced to come home with the little end of the score.

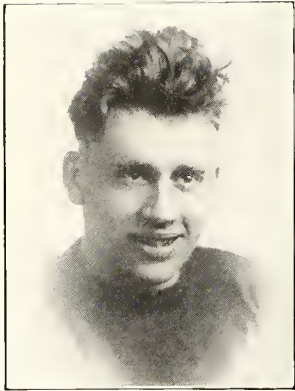

The teams Newton planned to play were: Iowa City, Indianola, Grinnell, West Liberty, East High, Marshalltown, in spite of the fact that the season was suddenly brought to a standstill by the influenza quarantine, the high school spirit never failed, and we feel confident that our team was prepared to be victorious in the scheduled games.

Those who composed the team were: Bunker C., Williamson, Carpenter, Scofield, Meredith, Bowman, Smith, Esmeyer, Reynolds, Hammerly, Morrow, Westbrook, McConkey, DeBok, Raridon, Kunze, Wilson, Talbot.

Due credit should be given these members of the football squad for they had worked hard and long that they might be in fit training for the season. The majority of these men will not be back next year, but our second team contains some very good material and the prospects for next fall look good.

During the short season of football much enthusiasm existed among the student body, and the team was supported by more rooters than ever before in the history of N. H. S. This was due to the rousing pep meetings held before every game, the efforts of our capable yell-leaders, and the stirring speeches made by Coach Davis.

May the N. H. S. football team of 1919 be victorious in all the games they play and may the N. H. S. student body show their enthusiasm and support as they did in 1918.

FRED BUNKER, Capt., Fullback.

Fred was fullback and Captain of this year's foot-ball team. Whenever a yard or two was needed Fred was the one who could smash that line. If he couldn't go thru he would dive over. He was the hardest tackler on the team. Graduates, will be missed next year.

FRANK CARPENTER, Tackle

Mop played tackle this year and was one of the dependables to plug up his side of the line. He had lots of fight and always gave his man all he wanted. He was especially good on defense, breaking up plays. A valuable man lost on account of graduation.

MARK SCOFIELD, Halfback

This was Mark's first year at foot-ball but he made good from the start. He carried the ball wwell and was a valuable man on defense. He was always full of fight. Mark was our little midgit halfback. Graduates, place will be hard to fill.

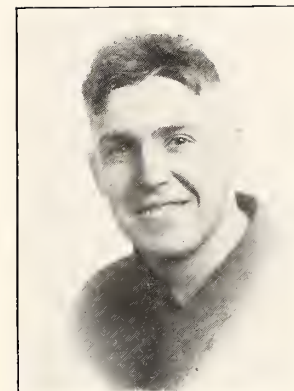

KEITH WILLIAMSON,
Quarterback

Fast and steady. A good punter and forward passser. Could be relied upon, level headed as a good quarterback should be. A good tackler. He leaves a place which will be hard to fill next year.

CLYDE WILSON, Guard

Clyde has the making of a good football player with a little more experience. He is a hard fighter who never says quit and will be banked on heavily next year.

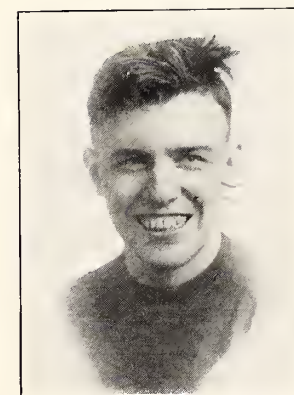

HAROLD SMITH, Left Tackle

Gunboat filled in well at tackle and was one of the most consistent men on the team. He was always willing to do anything that the coach asked him to do and has a goodly amount of team spirit. We will miss him next year.

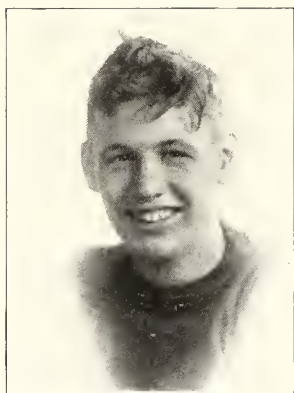

MERWIN MEREDITH, Halfback

Mere was there and over on defense but lacked confidence in himself on offense. If he had one more year he would surely come into his own. We hate to see him go.

CARROLL MORROW, Center

After a long effort to find a reliable center we finally fell back on "Runt" and he certainly played the position in fine shape for a green man. Graduates, will be missed next year.

CARROLL HAMMERLY, End

Fast and powerful. Lack of experience interfered with him in giving his best results to the team. He was good at blocking his opponent. He graduates.

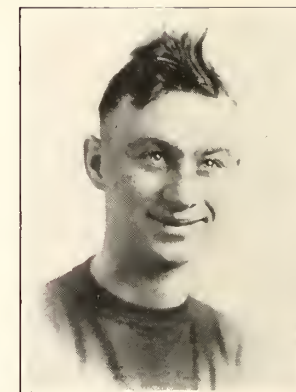

RALPH BOWMAN, Halfback

A fast little half back. His first year at football, but developed very rapidly. A good natured fellow. He graduates.

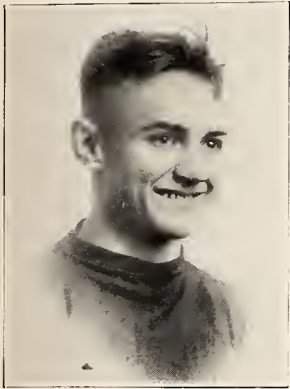

MERRITT WESTBROOK, Guard

He filled his position well with a determination to win. A perfect trainer and a good fellow mate.

JOE HOLDSWORTH, Utility End

Small but willing. Always trying. Developed rapidly. A fine team spirit.

CLYDE DEBOK, End

Good team spirit. Always trying to do all he could. A deadly tackler. Should be a good man next year.

FORREST KUNTZE, Guard

Sampson was a good guard. Always trying and tending to his own business. A clean player and a good trainer. He will be back next year.

EDWARD McCONKEY, Guard

He and Davy were very intimate on the field. He was always ready to stand his share of the burden. Should be a good man next year.

DON TALBOT, Guard

Large and powerful. Hard to break through. Lack of experience was his greatest handicap. Should make a good guard next year.

BASKET BALL TEAM

Left to right—Carpenter, E. Scoville, Ecklund, L. Scoville, Bunker, Williamson, Scofield, Brunner, Davis.

...Basket Ball Season of 1919...

The basketball season of 1919 was one that will never be forgotten in Newton High School. The size of the gymnasium handicapped our team, but notwithstanding this fact, they were able to come out victorious in many of the games. Those who composed the team were:

Capt. Scofield.....	Forward
Bunker	R. Guard
Carpenter	Forward
Williamson	F. Guard
Scoville	Center

The following subs had a chance to show their ability in several games played on the home floor; L. Scoville, A. Brunner, C. Mason, C. Ecklund. One of the first team and all of the subs will be back next year and for this reason Newton should have a victorious team.

SUMMARY OF THE GAMES

The first game of the season was with Brooklyn, played on the home court, whom we defeated by a one-sided score. The second game, with Grinnell, ended disastrously for us as they managed to defeat us. Iowa City came to Newton next and dealt defeat to our team.

Following the Iowa City game the Newton squad went to Dallas Center. Here Newton's men proved their skill by capturing a fast and scrappy game. The next game was held in "Oskey", here our team fought stubbornly but was forced to acknowledge the superiority of O. H. S. The following week we again defeated Dallas Center in our gym. We then played a return game with Grinnell and met defeat in a close game. We had the satisfaction of beating them in the first part of the game. The last game of the season was with the Alumni where we were able to be victors over our ex-stars. In all these games the N. H. S. squad showed plenty of fight and spirit.

Scofield, although the smallest of the five, showed equal ability with the best prospects Newton has had in many years. L. Scoville is always ready to uphold his end of the game. Scoville the long, lanky center, was always there with the tip-off and with this year's experience we are expecting great things from him during the next season. Bunker was the star player on the squad. His wonderful guarding saved Newton from defeat in most of the games. Carpenter our basket shooter, was dependable and always there with the goods. A. Brunner was indeed the nerviest man on the squad and is one of the best prospects Newton has had in many years. L. Scoville is another one of Newton's promising basket ball players who should develop into a star next year.

Track

Track season opened this year with a large number of men out for practice. Drake was the first place we tried, but owing to the inexperience of the majority of our team, we were unable to pull down any records. On May 3, Fred Bunker, our high jumper, and Harold Smith, the mile runner, went to Iowa City to take part in the meet. Bunker took first place, jumping five feet, three inches, but no doubt he would have done better if it had been necessary. He not only brought back honor for N. H. S., but also brought back a large medal.

Out of over thirty men, Smith came in fifth, running part of the time in six inches of water. Before Track season is over we will enter meets held at Ames, Simpson, Grinnell and the State Meet. After more training we are confident that N. H. S. will be highly represented. Although the majority of the men this year, who have won honors will not be back next year, we are sure of a good team, judging from the number of under classmen out.

SEPTEMBER

The Scribe begins this narrative with much fear and trembling. The first month about which he must write is particularly devoid and barren of anything startling or hair-raising in the line of social doings. But this space must be filled, so the Scribe toils on.

The ninth of September found all students, old and new, coming back to "Old Newton High." The old members on the faculty, we were glad to see and we welcomed the new ones to our ranks.

On the fourteenth of the month the Y. M. held their first "get-to-gether" in the nature of a hay seed party on the lawn of the H. P. Smith home in Elm Park. The Y. W. were also hostesses to the High School girls at an "informal" given in the gymnasium on the evening of the thirteenth.

Football started with a big victory over West Liberty on the twenty-first. The game being played on the home field. The following week we journeyed to Des Moines without such good luck and went down to defeat against East High.

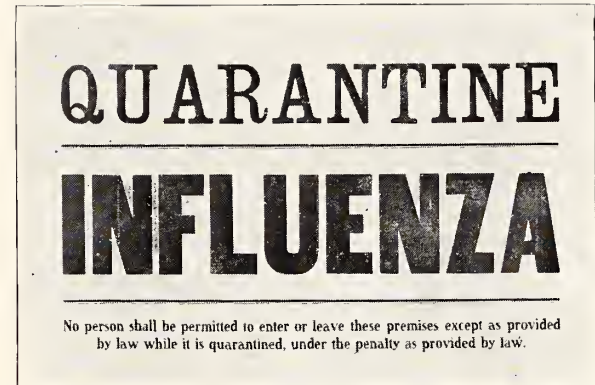

OCTOBER

At this point the Scribe needs stop and scratch his brow, for this month was indeed deadest of all dead months in the social circle.

The third and fourth were happy days for us all, school was closed for the teachers' convention, which was held here.

On the fifth, the Newton football squad accompanied by a peppy bunch of rooters motored over to Marshalltown to their last football game. A mighty scrappy game was fought, but the wearers of the "N" were unfortunate and came home with the little end of the score.

During the remainder of the month the students enjoyed the exciting time of living in an absolutely dead town; no parties, no movies, nothing, and we certainly were all dressed up with no place to go.

NOVEMBER AND DECEMBER

November entered with the flu lid on, and remained on until the twenty-eighth, Thanksgiving Day. The following Friday school opened with much enthusiasm, and the slogan "Let's Go" deeply impressed the students when it was seen in class rooms, study rooms, and halls. For one short week the life of old N. H. S. fairly hummed along, and then once again we were quarantined in by the plague.

No frivolities of any nature were indulged in because of public opinion against the influenza, but the wonderful, glorious time we all had November eleventh made up for the rest of winter's fun we missed. Flu or no flu, the square was packed with people celebrating the day of peace, and we are certain that it was a day that will never be forgotten.

JANUARY

January started out with a "boom!" Once more we are into the never ceaseless whirl of life and the Scribe draws a breath of relaxation, for he really has something to say. Miss Engle left during the fore part of the month to take a government position. But, true to the saying, "no great loss without some small gain." Mr. Dunn was added to our list.

The 11th of the month was one of the big days of the year. The first "Newt" in paper form was put before the public and to send it off a big program was given.

Basket ball season opened with a game against Brooklyn, the final score being 42-13 in our favor.

The twenty-second might well be termed mystery day. It was upon this day that Mr. L.— carrying a huge bouquet of pink flowers slowly promenaded the length of the rostrum to the strains of Mendelssohn's wedding march.

The 24th was not much of a gala day in the minds of the basket ball enthusiasts. It was upon this date that we were defeated in a hard fought game by Grinnell to the tune of 7-3. Following the game Newton was host at a reception given in the H. S. building in honor of Grinnell's rooters.

The 29th was the day for the Hi Y. Mr. E. J. Meier, state secretary of the Y. M. C. A., spent the day with us and take it from the Scribe, he surely made friends among all.

To end this busy month the home team defeated the Dallas Center five in the gymnasium of the latter on the 31st to the score of 21 to 13.

FEBRUARY

School always finds something for peppy souls to do so in this month dedicated to lacy paper hearts, hatchets and cherries, the students found their share.

A big double header basket ball game started the season off on the 7th. Kellogg vs Newton's 2nd team, and Newton vs. Iowa City. The big drive for the Y. M. started on the 13th by the presentation to the Commercial Club the urgent need for a Y. M. here. 13 proved very lucky for us and we got everything which we had anticipated.

Another loss and gain in our faculty; this month Mrs. Walker left us and her place was filled by Mr. Hogle. On the 14th the local quintette were defeated in a scrappy game by the Oskaloosa basket ball team on our opponents' floor.

The 21st was a big day, being the day before Washington's birthday, a special program was planned and given during the 8th period. The prizes offered by the Jasper Lumber Company were awarded. Last but not least of the day's happenings was the basket ball game we won from Dallas Center on our home court.

In this month the Domestic Science girls under the direction of Miss Masteller began serving the famous noon day lunches which made such a hit during the rest of the school year.

MARCH

It was in this month that for the first time we had all of our teaching squad on duty. Early in the month we lost Miss Williams, but gained Mr. Brandt and Mr. Morgan, and then the last one to be added to our pedagogues was Miss Smith, new physical training teacher for the girls.

The Grinnell game on the seventh was by no means a dead affair at the time, but it is buried now, so "let the dead past bury its dead." Everyone recovered from the humiliation of the defeat nobly and as nobly prophesied what we would do to Grinnell next year.

On the 14th we all went to "The Feast of the Red Corn," given by the Junior High students at the Rialto. From the fourteenth to the sixteenth the Y. M. convention at Davenport held the interest of the Hi Y Club. A good bunch of delegates were sent down and was honored by having the acting president of the convention a Newton boy—Robert Cooper.

The latter part of the month the agriculture judging team went to Ames to a state contest, capturing cups and sweepstakes besides having a man win the only individual medal offered. These honors make Newton's boys the team to represent the state at the International Live Stock Show in Chicago next December.

The following week the Y. W. had their big day. Miss Jordan of Des Moines came down and they all enjoyed a big spread after hearing an inspiring talk from her.

APRIL

April started off in tip-top fashion by the girls of the senior classs giving a party to the boys on the evening of all foolsday. It was a hayseed party and hugely enjoyed by all.

The second day of the month the Spanish class gave a program to the student body, the entire program being given in that language.

The nineteenth of the month marked the day of the Drake relays. Newton sent a team, did not place but did well considering the short practice season which they had.

On the twenty-fifth was one of the big days of the school year. The U. C. Freaks Mammouth Shows were here. Every one came to school in the afternoon dressed for their part. After the attendance was taken school was dismissed giving time "to fix up" for the parade.

On Wednesday, April thirtieth, Mr. E. T. Krueger, of the Billings Polytecnic Institute, gave a very interesting talk to the student-body.

MAY

From now on the Scribe pauses, he is dealing in futures, he is neither a palmist nor a stock-broker. He will try his luck however, in palming off a little gush to fill space and enlighten the patient reader.

Col. Dan Smith, commander of the battalion of Death, was the speaker at a general assembly held on the morning of May the second.

A track meet was held at Iowa City on the third of the month, Newton sending only two representatives, but copping a first in running high jump.

On Sunday afternoon, the fifth, the Y. W. held a very impressive vesper service at the Congregational church.

Track meets proved very popular, for every Saturday in May our team attended one. The Ames, Simpson, State, and Quadrangular Meet held this year at Grinnell, were attended on the tenth, seventeenth, twentyfourth, and thirty-first respectively.

As far as soc'ety is concerned, of course there were the class picnics and parties not to mention the "oodles" of other gayeties.

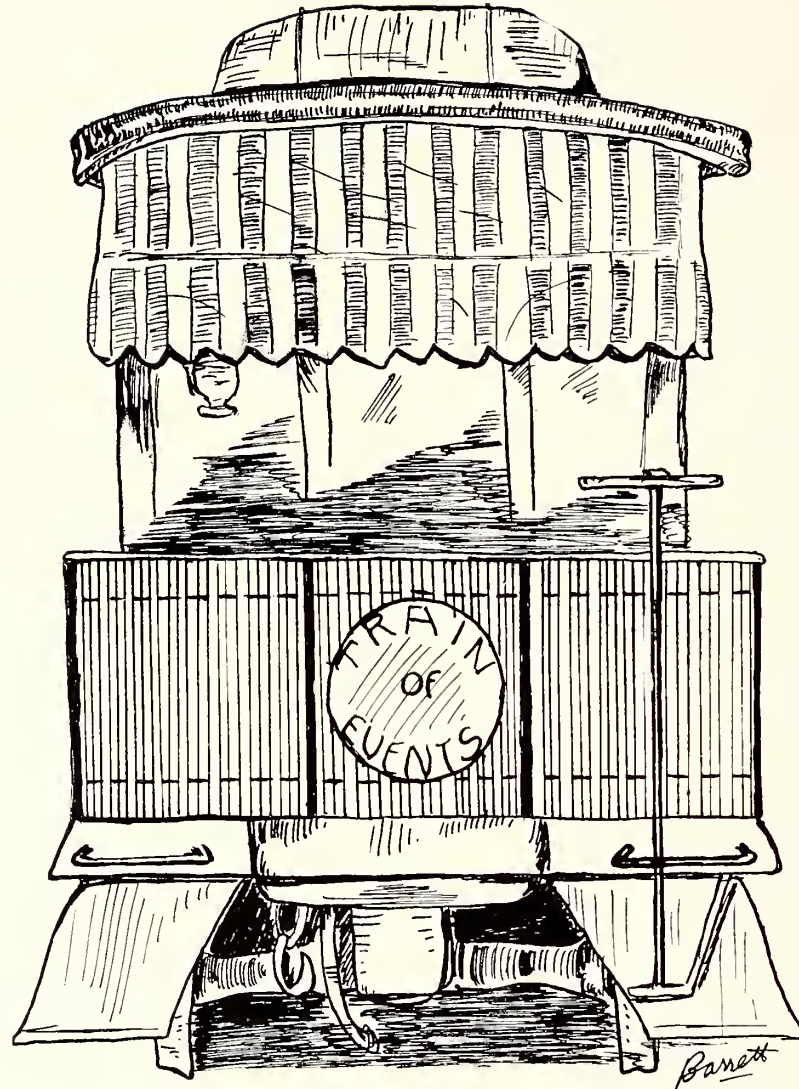

JUNE

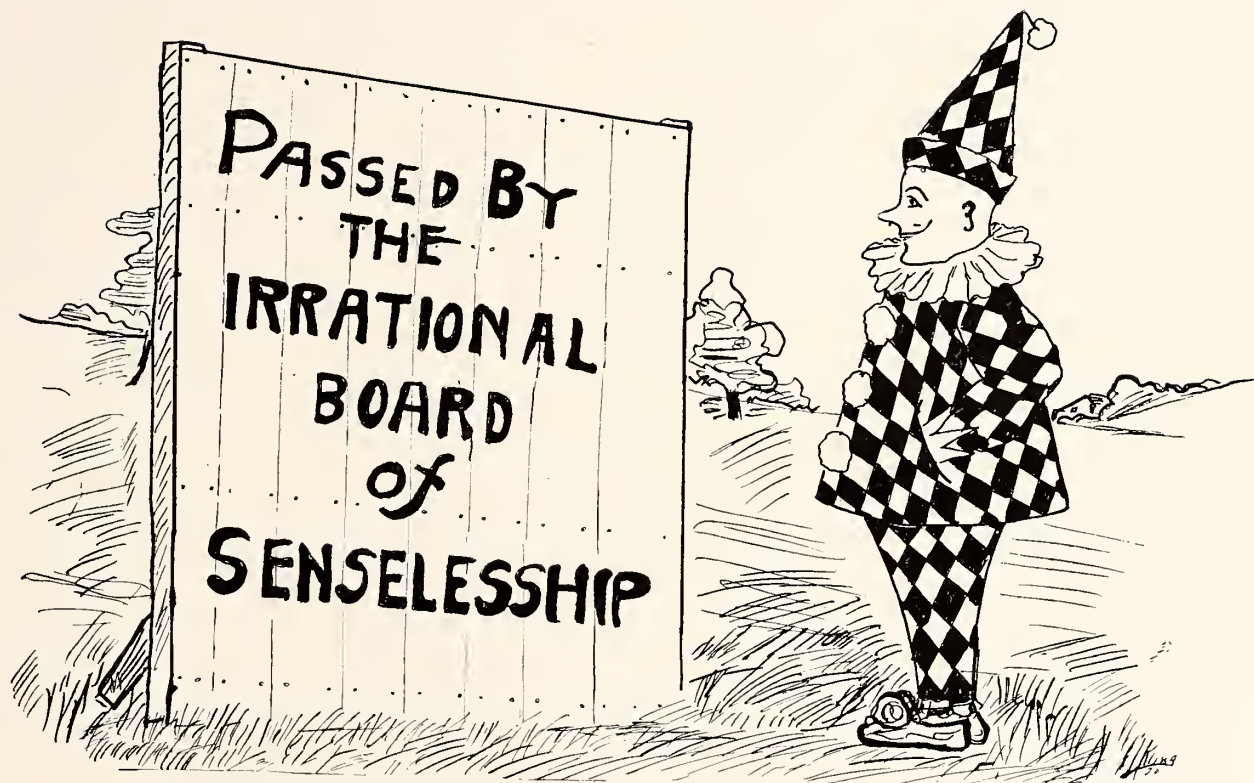

June—this is the month that the class of nineteen hundred nineteen have been waiting for, for the past four years. They have been comparatively short years, yet how many changes have taken place. How different the class roll is today from what it was four years ago, how different each individual is compared with his freshman year. Some, we all will miss next year and miss them a great deal but all will be missed by some.

Commencement week started on the eighth, Baccalaureate Sunday. Rev. R. B. Helser, of the Christian church, delivered the sermon. The following day was the Junior-Senior Banquet which the seniors always look forward to. Wednesday, the eleventh, marked graduation day. The last event coming on the following Friday, the thirteenth—The Alumni Banquet.

From that day we all scattered for the summer. That meant frivolity to some and hard labor to others.

And here the Scribe lays down his pen and humbly submits these few lines to the editor and critical public. May neither be too critical.

Why is it, the young son of the Supt. calls the Principal "Uncle Chucky?"

Boyde Bolte: "Oh! I wish I was just an ordinary Freshman." (Puzzle: What is he any way?)

Why is it Lucille Hindorff always wants to help the Newtonia Staff fold papers?

Why was it Mr. Brandt was fussed when he said that Red Cross girl won his heart right off?

Why is it Edwena Harvey comes back to school at the end of the eighth period when solid geometry class is out?

Why is it Mr. Dunn always comes to school just as the "Noon-day luncheons" are over?

For what reason is Keith Williamson so attracted by Junior High girls?

Why is it Miss Furniss looks forward to the 5.05 coming in on Saturday night?

THE VILLAGE JOKE SMITH

Under the spreading chestnut tree,
The Newtonia Joke Editor stands;
Mary, a smallish child is she
With large and sinewy brains,
And the murmur of her choked voice
Is, "Chestnuts fall on me."

Her hair is crisp and black and long,
Her face is like a pan,
Her brow is wet with honest sweat,
For she jokes when ere she can.
She whacks the whole school in the face,
For she slammeth every man.

Week in, week out, from morn till night,
You can hear her bellows blow,
You can see her swing her heavy sledge
With measured beat, and slow,
Pounding the jokes from students' heads,
When the tide of humor's low.

And children loitering home from school,
Look into the open book;
They love to see the flaming page,
And hear the fellows roar,
And catch the burning jokes that fly,
Like dust from the dancing floor.

Toiling, rejoicing, sorrowing,
Onward thru school she goes,
Each morning sees her task begin,
Each evening sees it close,
Some joke attempted, some joke done,
Has earned a sniff of the nose.

Thanks, thanks to thee, my worthy friend,
For the lesson you may get,
Thus at the flaming teacher's desk,
Our grades must needs be bought,
Thus on our report cards are shaped,
Each burning joke and thought.

"Emma Louise Davis, Iowa's best rooter,
1932."

"HERE HE IS"

The most polite man in the world has been found. When a woman apologized for gouging him in the eye with a parasol he said: "Don't mention it, Madam I have another one."

Those taking typewriting have busy days. Eva S. and Crystal J. were talking about their work the other day, when Crystal said:

"Isn't it fierce the way we're having to work these days?"

"Fierce! Well, rather! Why, I typed so much the other day that I finished my prayers with, 'Yours truly.'"

JUNIOR HIGH

All up and down our Schoolhouse stairs,
Our Junior High friends run;
They have no grievances or cares,
They're full of joy and fun.

Yes every week, from morn till night,
These little girls and boys
Fill N. H. S. with cheer and mirth,
That makes its heart rejoice.

They have their sorrows and their woes,
Exams, hard lessons, too,
But thru it all they smile and say,
"I'm happy—aren't you?"

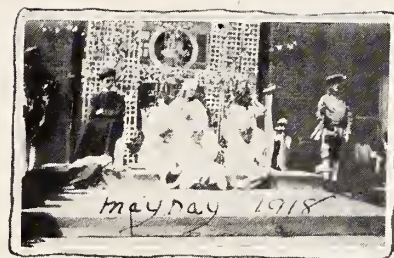

Although they're not so very big,
They teach a lesson great,
That is, just keep on smiling,
No matter what's your fate.

We had to smile when one of our Junior Girls asked the other day if the abbreviation for consolidation was C. O. D.

Mr. Metzler—"I told you that these exercises should be written up so that the most ignorant could understand them."

Opal Swigart—"I er-er, what is it you don't understand."

Betty Clark—"What a fine looking mouth you have, it ought to be on a girl's face."

Keith Williamson—"Well, I never lose an opportunity."

WHAT MADE THE FACULTY MEMBERS FAMOUS

Mr. Lauterbach going to Des Moines.
Miss Baker's fondness of children after school hours.
Mr. Morgan's eighth period assembly.
Miss Mansfield's special penmanship class.
Mr. Sign's class lectures.
Mr. Dunn pounding nails.

Ruth Reid—"I answered all the questions today."

Mother—"And how did you answer them?"

Ruth Reid—"I answered, I didn't know."

Clerk—"Now, see here little boy. I can't spend the whole day showing you penny toys. Do you want the earth with a little red fence around it?"

Dale Allen—"Let's see it, please."

In Commercial Geography Class—

Miss F.—"What is meridian?"

Sadie Stotler—"Why - a - it is a line that runs from the head of the earth to the foot."

I WONDER WHAT THESE FOLKS WOULD LOOK LIKE IF—

Craig Miller would lose his dimples.
Ralph Herron grew to be at least eight feet tall.

Clark Millgate would grow curls.
John Matthews would lose his freckles.
Betty Clark weighed 250 pounds.
Glenn Enfield came to school not "dolled up."

Walter Buchanan lost his glasses.
"Bud" Woodrow was a minister.
Ned Fish would lose his ears.
Robert Spearing was a living skeleton.
Edna Green didn't wear a red ribbon with a pink smock?

Teacher—"When should you say 'Thank you?' "

Mary Keiser—"When we have company."

The Freshmen boys are green
The Sophomore boys are sweet,
The Junior boys are witty;
But the Seniors can't be beat.

The circus parade and eats, yum, yum!
They all come dressed for the big parade,
And afterwards drink some lemonade.

Let's go up and see that Editor Show,
Just up the stairs and in we'll go,
The fish pond and then the great big freaks,
And then I'll be ready for a good nights sleep.

CONFIDENTIAL BOOK GUIDE

Old Age, It's Prevention and Cure—by "Mop" Carpenter. (Very interesting and helpful to those interested.)

The Financier—by Clinton Smoke. (Very good reading, deals with Smoke's own experiences.)

Fashion Guide—by "Turkey" Stanton. Every one should read this wonderful book, it gives the latest idea in new fangled fashion, especially designed by the author.

The Scofieldian—by "Ed" Harvey. Guaranteed to be very thrilling and exciting. It is a story of a shipwrecked love affair on account of a rain storm.

The Farmer—by "Mike" Mills. A very bad story of a love affair in an onion patch.

The Little Woman—by Anna Shaw. Big book, small print, everyone should read it.

The Forester—by Myrtle Maxwell. In this famous book she tells of her own experience and intense interest in forest. (Forest). These books may all be found at the library, Top Row.

You could find no one quite like our good
Clarke;
Tho you hunted from daylight until it grows
dark.

His sweet little smile,
Which, he shows all the while,
Is his one great and only trade mark.

Vera A.—"You would be a good dancer, Frank, but for two reasons."

Frank C.—"And they are——?"

Vera, (smilingly)—"Your feet."

Russel Hoen was sitting on the radiator in the hallway at the N. E. door and the aroma of meat was wafted out the door.

Ralph Herron, (clever as usual)—"I smell pork burning."

Russel immediately jumped off the radiator and looked hastily around.

There are those who sleep by day upon the
desk;

There are those who sleep at nite within a bed,
But those who get best grades from teachers,
Are those who are wide-awake 'tis said.

Helen H.—"Frances, do you know why you haven't red hair?"

Frances K.—"No, why?"

Helen H.—"Because ivory never rusts."

A day or two ago, during a lull in business, two little boot-blacks, one white and one black, were standing at the corner doing nothing, when the white boot-black agreed to black the black boot-black's boots. The black boot-black was of course willing to have his boots blacked by his fellow boot-black, and the boot-black who had agreed to black the black boot-black's boots went to work.

When the white boot-black had blacked one of the black boot-black's boots till it shone in a manner that would make any boot-black proud, this boot-black who had agreed to black the black boot-black's boots refused to black the other boot of the black boot-black, until the black boot-black, who had consented to have the white boot-black black his boots, should add five cents to the amount the white boot-black had made blacking other men's boots. This the boot-black whose boot had been blacked refused to do, saying it was good enough for a boot-black to have one boot blacked, and he didn't care whether the boot that the white boot-black hadn't blacked or not. This made the boot-black, who had blacked the black boot-black's boots, as angry as a boot-black often gets, and he ventured his black wrath by spitting upon the blackened boot of the black boot-black. This aroused the latent passions of the black boot-black, and he proceeded to boot the white boot-black with the boot which the white boot-black had blacked. A fight ensued in which the white boot-black who had refused to black the unblackened boot of the black boot-black blacked the black boot-blacks visionary organ, and in which the black boot-black wore all the blacking off his blacked boot in booting the white boot-black.

Violets are blue,
Roses are red,
And so is the hair,
On Gladys' head.

SPRING TIME

This is Springtime, how can I sleep?
When every tree is hung with bloom,
And when the wild crab apples keep
So keen a fragrance in the room?

Paul Reynolds—"There's a man in the office with a wooden leg named Smith."

A Popular Parlor Proverb—"A kiss returned is another earned."

BIG THINGS IN SCHOOL

Russel Stanton's head.
Mr. L's feet.
William Carrier's Bluffing.
School spirit.

So 'tis better for her in her sweet repose,
To not have attended picture shows.

Girls' Glee Club—"We can sing in any flat—just give us the key."

They came into a movie show,
In time to see it start;
And prim, precise and proper, quite;
They sat this far apart.

But, Oh! The hero wooed the girl,
Twice, Oh! He stole a kiss;
And when the lights went out again,
They sat up as closeasthis.

Miss Griebbling—"What tense are you using when you say 'I had money'?"
Dora Wheeler—"Past tense."
Miss Griebbling—"I have money?"
Dora Wheeler—"Pretense."

A BONE DRY BANQUET—BUT!

The onions were pickled,
The potatoes were stewed to the eyes,
The candles were all lit up;
The mince pie was groggy;
The salt cellars were full,
The flowers had been out all nite;
Even the ice water was drunk before the evening was over;
In fact, all the food and drink was on the downward road! Aw-gwan!

The Senior Girls in their Physic's Lab.
Sound like a regular Ladies Aid;
They talk and gossip and chatter and gab,
Like honest-to-goodness and real old maids.

Ernestine D., Estella and Nellie,
Keep things fairly humming at Tables;
And all the while Mr. Hogle just smiles,
He knows, girls will be girls
What 'er he would do.

Three little froggies ran away,
From Mr. Hogle's room one day;
They hopped around in the lower hall,
And didn't know where they were at all.

And all of a sudden, !!!
A terrible scream !!!
For Miss McLaughlin, !!!
Had come on the scene !!!

She gathered them up,
And took them home.
And expressed her wish,
To be alone?

Keith W.—“They tell me your watch has a mystery connected with it.”
Fred B.—“Yes, there’s a woman in the case.”

First Man—"Sunday afternoon is the best time for rest that I have."
Second Man—"Why I thot you never slept on Sunday."
First Man—"I don't but my wife does."

How busily the Freshies work,
To get their lessons tough!
The Sophies flunk, the Juniors shirk,
The Seniors—Oh, the Bluff.

BANK REFERENCES

Bank references are often invaluable in securing a position or in obtaining credit accommodations.

To secure such references you must be known at the bank. The bank's officers must be acquainted with your character and your resources.

The quickest way of establishing such an acquaintance is to open either a savings or a checking account with this bank.

This is the first step. Surplus funds, bank references and a higher credit standing follow.
